Act taken separately

The attention of Government is invited to figures detailed below showing the number of maternity and child welfare centres requested for by local bodies for the years 1949-50, 1950-51 and 1951-52 and the actual number of centres sanctioned by Government for the same years.

| | Requested for | Sanctioned. |
|---|---|---|
| 1949-50 | 17 | 17 |
| 1950-51 | 63 | 63 |
| 1951-52 | 88 | 53 |
| 1952-53 | 135 | Orders of Government are awaited. |

During the above years, several district boards and municipalities have opened centres forfeiting their claims for maintinance grant during the current year with the anticipation of including this grant in the subsequent years.

The construction grant for the past four years have not been granted to any single institution on the grounds of finance.

The Maternity and Child Welfare Scheme has now been popularised in every District Board and Municipality and in several panchayats as well. Local bodies are now enthusiastic in this realisation and eagerly desire to provide maternity and child welfare relief to their women andchildren population. Their interests therefore need to be sustained. Progress in this direction has been gradually and firmly established since 1931, simultaneously both maternal mortality and infantile mortality rates have gradually fallen down from 7.7 and 182.9 in 1931 to 5.7 and 130.13 respectively at the end of 1950 in the State.

It may also add that some local bodies while conscious of this need do not always readily agree to provide measures for Maternity relief and Child Welfare. In instances like Nellore District Board where there are the minimum number of Maternity and Child Welfare Centres provided and in the South Kanara District Board where there are 20 centres with no proper supervisory staff, the necessary drive and the urge from this Department to initiate these measures have been frequent and constant with little response upto date. Under the circumstances, requests from local bodies for opening new centres for 195253 financial year are considered really essential and urgent to be included in the Part II Proposals for 1952-53 but certain of them may be deferred for Part II Proposals for 1953-54. A list enclosed gives those local bodies which require top priority in this connection.

| MUNICIPALITIES. | DISTRICT BOARDS. |
|---|---|
| 1. Nellore | 1. Kurnool (Famine affected area). |
| 2. Srikakulam | 2. Cuddapah District Board. |
| 3. Guntakal | 3. The Nilgiris. |
| 4. Cochin. | 4. Ramnad. |
| 6. Gobichettipalayam. | 5. Malabar. |
| | 6. Tiruchirapalli. |
| | 7. Tirunelveli. |
| | 8. Panchayat Board - Kalavai. |

Orders of Government are requested as to whether Part I Scheme proposals need be called for from the local bodies as usual for 1953-54 and submitted to Government on 1-10-1952 or may be suspended until further orders of Government.
